

Inland ENC Update from June 30th, 2026

- Updated depth information for the free-flowing Danube section east of Vienna (river km 1921.0–1872.7), including the shallow sections in the Wachau region (Haufenrand Dürnstein, Furt Weißenkirchen) and the Vienna ports of Freudenau, Albern, Lobau.
- Updated the recommended navigation track at Furt Schwechat (river km 1914.2–1913.2).
- Upgraded pontoon facilities at Aschach: the public pontoon and the pontoon at river km 2159.9 and 2159.1 have been equipped with shore power connections, dolphins, and access bridges.
- Amended berth information, waterway markings, and fairway signs in the Aschach pontoon, Ottensheim, and Mauthausen sections.
